

## POLI/3 1000kg CHAIN HOIST. Load chain: 6 m / Hand chain: 6m

## POLI/3 1000kg CHAIN HOIST. Load chain: 6 m / Hand chain: 6m

POLI/3 is a manual chain hoist with a maximum load capacity of 1000 kg (lifting height: 6 metres).

Hoist features:

- Automatic brake. Self-activating automatic brake holds the load when the hand chain is released.
- Provided with double load chain and hand chain, both 6m long.
- Hand chain galvanised.
- Strengthened steel shafts, pinions and hooks (fully manufactured in steel).
- Grade 80 loading chain.
- Pinions, hooks and shafts with bearings.
- Hoist with reduced height loss.
- It has a roller bearing which helps the smoothness of the operation.
- Tested according to the norms of the European Materials Handling Federation and European directives 89/392/CEE, 91/368/CEE, 93/44/CEE and 93/68/CEE. Norm UNE 58-915.
- Dimensions: 317 x 140 x 158 mm
- Net weight: 14,5 kg
- Chain diameter: 6 mm
- Manual force required: 309 Nw
